The "Aggregate" column is the sum of all class points earned by each competitor.

Each club's member's aggregate scores are summed, with the total shown in the "Wratten" column.

This total will be multiplied by the fudge factor to calculate the Wratten score for that club.

The "Nuffield" column is the sum of points earned at the Concours and Motorkhana by each competitor.

These scores are added up for the best "X" competitors for each club, where X represents 2% of the club membership, with a minimum of 5 and a maximum of 20. Unused scores are shaded grey.

This total will be divided by X to calculate the Nuffield score for the club.
